Akram Hafaiedh

SENIOR FULL STACK DEVELOPER

✉ hafaiedhakram@gmail.com 📱 +216 50 569 298 📍 Carthage, Tunis, Tunisia

PROFESSIONAL PROFILE

Dynamic Senior Full Stack Developer with 4+ years of proven expertise in architecting and delivering scalable web solutions across diverse industries. Passionate about leveraging cutting-edge technologies including React, Vue.js, Next.js, Laravel, Django, and Node.js to build high-performance applications that drive business growth. Demonstrated track record in leading end-to-end project development from concept to deployment, with a strong focus on clean code, agile methodologies, and cross-functional collaboration. Experienced in remote work environments and international projects, delivering technical excellence and innovative problem-solving to every challenge. Committed to continuous learning and staying ahead of industry trends, with expertise spanning frontend frameworks, backend architectures, database optimization, and modern DevOps practices.

TECHNICAL SKILLS

Frontend
React Vue.js Angular Next.js TypeScript HTML5/CSS3 Tailwind CSS Bootstrap Datatables shadcn/ui

Backend
Laravel Django Node.js Express.js PHP Python REST API GraphQL Blade

Databases
MySQL PostgreSQL MongoDB Redis

DevOps & Tools
Docker Git/GitLab CI/CD RabbitMQ WebSocket

Software & Tools
VS Code Postman Figma Jira Jest PHPUnit Sentry Meilisearch ClickUp Slack Cursor

Methodologies
Agile Scrum TDD Code Review

PROFESSIONAL EXPERIENCE

Freelance Full Stack Developer
Casagroup • Germany (Remote)
July 2025 - October 2025

- Engineered a comprehensive enterprise management dashboard for the German market, enhancing operational efficiency through modular architecture
- Developed modular systems for insurance, accounting, taxation, HR, and leave management, ensuring seamless integration and scalability
- Integrated advanced features including email systems, real-time notifications via WebSockets, and activity logs, improving user engagement by 30%
- Built a modern React interface with shadcn/ui and Tailwind CSS, delivering a premium user experience with optimized performance

React shadcn/ui TailwindCSS PHP Laravel TypeScript Node.js MySQL

Senior Full Stack Developer
Iberis • Lac1, Tunis
December 2023 - June 2025

- Led complete migration of the Iberis SaaS platform using Vue.js and Laravel, resulting in 40% improved system performance and reliability
- Developed Fintech SaaS modules with customizable PDF templates, dynamic headers/footers, multilingual support (FR/AR), multi-currency (XOF/XAF), and auto-numbering, streamlining financial operations
- Engineered standalone POS module with real-time stock synchronization, payment processing, and multi-currency tax configurations, reducing transaction times by 25%
- Implemented subscription monetization with premium features (+1000 API calls/month) and Konnect integration, boosting revenue through enhanced user tiers
- Created secure client/supplier portals with invitation systems, Google Calendar integration, and granular permissions, enhancing collaboration and data security
- Optimized data processing with batch Excel imports (10k+ items) and interactive tables featuring filters/exports, handling large datasets efficiently via Redis caching
- Drove significant user growth from 1k to 9k active users through scalable multi-tenant architecture and performance enhancements

Laravel Vue.js MySQL Bootstrap REST API Redis WebSocket Ionic Konnect Yajra Datatables Blade

Full Stack Developer
Next Consulting • Tunis
August 2023 - November 2023

- Developed complex business applications with real-time messaging via WebSockets, improving communication latency by 50%
- Engineered a transportation solution with push notifications using Pusher, enhancing user responsiveness and operational efficiency
- Built a real estate marketplace with advanced search engine powered by Meilisearch, increasing search accuracy and speed for users
- Implemented microservices architecture to boost scalability, supporting high-traffic loads with modular, maintainable code

Laravel Blade Vue.js React Next.js Node.js WebSocket Meilisearch

Freelance Full Stack Developer
Dcarte Solutions • Lac2, Tunis
October 2021 - June 2022

- Provided technical leadership for an innovative NFC business card system, ensuring robust architecture and seamless deployment
- Developed responsive web interfaces and cross-platform mobile apps, improving accessibility across devices
- Managed full project lifecycle from analysis to deployment, delivering on time and within scope using agile practices
- Mentored team on best practices, enhancing code quality and collaboration through code reviews and training

React React Native Django Laravel MySQL Postgres TailwindCSS NFC

Master's Project Engineer
PHYSIOMEDICA • Mégrine, Tunis
February 2018 - August 2018

- Conducted R&D for an innovative medical electronic system, focusing on hardware-software integration
- Designed a portable slimming device with Android interface, optimizing for user-friendly controls
- Integrated Bluetooth and communication protocols, ensuring reliable data transfer and device connectivity
- Performed clinical validation and ensured compliance with medical standards, contributing to product certification

Java Android Bluetooth C/C++ Altium Designer

EDUCATION & CERTIFICATIONS

Master's in Biomedical Instrumentation
Higher Institute of Medical Technologies, Tunis
2016 - 2018

Specialization in medical electronic systems and precision instrumentation

Bachelor's in Biomedical Instrumentation
Higher Institute of Medical Technologies, Tunis
2013 - 2016

In-depth technical training in electronics and embedded systems

MEAN Stack Certification
Technologia Academy
2021

Full-stack development: MongoDB, Express.js, Angular, Node.js

Self-Taught Full Stack Training
Ongoing Training
2019 - 2024

Continuous learning of modern web technologies and development best practices
